About Us

Creators of tailor-made cosmetics and manufacturers of Wow Products.

Technature's ambition is to design, manufacture and package innovative cosmetic products at the image of the national and international brands for which we work. That means we create new products and new trends at the same time, while providing our clients a full service: from the idea to the finished and packaged product.

Our personalized approach meets all the needs to develop your new products while respecting international regulations.

- A constant innovation: the R&D team and its iD Lab department imagine and design the cosmetic products of tomorrow (original galenics and innovative care rituals).
- Leader in the manufacture of powder masks, with a perfect mastery of the alginate gelling process.
- A catalogue of close to 250 off the shelf formulas from masks and wraps to creams, gels and oils...
- A regulatory support for the commercialization of products on national and international level.
- Quality products, 100% made in France.
- A growing evolution: Cosmos, Halal & Vegan certifications, eco-responsibility, natural range, anhydrous products... Technature adapts to trends, expectations and your needs.
- Presence in more than 50 countries

Innovation: Technature's DNA

- The R&D department represents 10% of our staff, allowing us to develop an average of 4 new formulas approved weekly and 2 to 3 innovations each year.
- An iD Lab service where innovation, development and ideas come together with dedicated innovation project managers. Their missions? Thinking outside the box gives life to new types of formulas, new industrial processes, through partnerships with cosmetics schools and universities.

A diverse product offer

- Peel-off masks (Alginate)
- Ready-to-use masks (stick masks, hydrogel, bio-cellulose, sheet masks...)
- Skin care (creams, serums, gels, scrubs...)
- Cosmetic powders (thermal masks, rinse-off masks, anhydrous personal care, scrubs...)

A turnkey service

Need an idea? Looking for innovation? Creating a brand? Need a specific cosmetic care?
Need a customized formulation?

1 Project support / custom cosmetics

Technature offers you its services for the development and creation of your quality customized cosmetics!

A full service : from the idea to the finished and packaged product, through a follow-up of the regulations related to the products commercialization.

2 R&D Formulation

2 options are available :

- Cosmetic masks and skin care, already formulated by our experts.
- A customizable formulation : the possibilities are endless to create your unique and exclusive product! Our ambition is to make you trigger the « Wow Products » effect!

3 Regulation

Cosmetic products are subject to strict regulations, which may differ depending on the country of commercialization. Our regulatory department will assist and advise you in order to ensure the regulatory compliance of your products (building up and updating the Product Information File, verifying the mandatory labeling, creating the regulatory documents necessary for the export/import of products, subcontracting tests...)

4 Manufacturing

Our 2 industrial sites allow us to meet the demands of important customers from all over the world, within the framework of a customized manufacturing, adapted to all their specific needs.

- **Dirinion** : specialized in the manufacture and packaging of cosmetic **powders**
- **Le Relecq-Kerhuon** : specialized in the manufacture and packaging of **skin care** (creams, serums, lotions, milks...) and **Hydrogel** masks/patches.

5 Filling

Customized packaging for each cosmetic product

To give your brand's products a clear and stunning visual identity, we offer several packaging and printing options.

- Technature now offers recyclable and more eco-responsible packaging.

Mask
