THE **ADVANCED** ACTIVE  
FOR **PLUMP** LIPS  
AND **V-FACE** RESHAPE

## POWERFUL LIP VOLUMIZER AND V-FACE RESHAPER

A V-shaped Face, with a slim and defined jawline, together with plump and juicy Lips are considered signs of vitality and elegance. For this, thin lips as well as the loss of skin elasticity, that changes the face shape to more of a round one, are common beauty concerns at all ages.

Akott has developed AKOSKY™ KISS, a powerful lipophilic active with fresh Fenugreek Sprouts, which has the extraordinary ability to support and magnify everyone's beauty with plumper lips and attractive appearance.
